Race Report

Aireborough Swimming Club were well represented at the City of Bradford Rising Stars Winter Gala, with **26** swimmers in attendance, our highest at a Rising Stars Gala.

The increase in swimmer numbers meant we had wonderful balcony attendance at the gala. Thank you to each and every person who comes to watch our very special ASC swimmers.

We came away with **43** medals, but I want swimmers to focus on the amazing uplift in their race times! And whilst medals are always nice, the most important things are learning why DQs happen and focusing on the improvement in swim times. Let's keep building this momentum! We are a competitive club with some fantastic talent!

Provided below is a rundown of each event, including entered times, new timings, places, medals awarded and, where disqualified, the reasons why. I recommend that, where possible, parents speak with the swimming teachers if the swimmer needs an explanation for a DQ. It can be very disheartening for our young team members to hear that they are disqualified when they don't understand why. So please do follow up with the teachers.

Entered Time = This is the quickest time the swimmer has achieved at an ASC gala in the last six months, so it doesn't take into account quicker times they may have swum at other clubs.

Place = This is the overall place the swimmers finish from all the participants in their age group. Swimmers will swim in heats across the age group, e.g. 9 and 10, but at Rising Stars Galas, the swimmers medal at their actual age. I've provided in brackets the number of same-age swimmers overall so you can see the ranking.

New Time = Keep this report handy as a record of your swimmer's times so you know their race pace for the next gala entry.

If your swimmer is missing any medals from tonight, please let me know, and I'll source the missing ones for you.

Please continue to enter your swimmers for the ASC Galas. This event was incredibly fun, and it was noted how much of a strong side we fielded.
